Peel-N-Stick Door Seals

Our Peel-N-Stick weatherstripping can be used any place a rubber seal is needed. With the easy to use Peel-N-Stick adhesive backing, simply cut to size and apply to the areas you need to seal. Available in multiple lengths and in a variety of profiles, our Peel-N-Stick parts are made of the same quality sponge & dense rubber found in our standard rubber parts and weatherstripping.

FENDER WELTING

Enjoy a squeak free ride in your Street Rod or Custom Build by installing fender welting. This fender welting is installed between two (2) flanged metal surfaces, such as the front/rear fenders and the body. These weltings feature reinforced black vinyl over a vinyl core. Need assistance finding the right part for the job? Call 800-650-6190

3M Super Weatherstrip Adhesive Black or Yellow (5 oz.)*

This Super Weatherstrip Adhesive is designed to bond seals and gaskets to metal to ensure a waterproof and airtight seal inside your vehicle. This adhesive is ideal for weatherstripping around doors, trunk, t-tops, sunroofs, and windows. This adhesive creates a permanent bond when used on rubber, fabrics, seals, and metal. Although the adhesive remains pliable it is still resistant to the elements, detergents, grease, and more. Choice of black or yellow adhesive. 5 oz. tube.

96-8008-96 (BLACK)

96-8001-96 (YELLOW)

3M Weatherstrip Adhesive Black (5 oz.)*

This Black Weatherstrip Adhesive is designed to bond weatherstrip and seals to other rubber parts and specifically to EPDM rubber. This adhesive is ideal for door, trunk, t-top, and sunroof weatherstripping. This adhesive creates a permanent bond when used on rubber, fabrics, vinyl, and metal. Although the adhesive remains pliable it is still resistant to the elements, oil, grease, and solvents. 5 oz. tube.

96-8011-96

Loctite Super Bonder 495

96-0495-96

General purpose instant adhesive designed to bond rubber, metal and plastic parts. Excellent for modified gaskets or rubber footage made of dense or sponge rubber. 3 gm. tube.

3M General Purpose Adhesive Cleaner Spray*

Makes the job of removing adhesive residue an easier task. Works by softening sticky substances that are often stubborn to remove. Quickly cleans off wax, grease, oil, old adhesive, road tar, silicone and other sticky residues. Will not dissolve or harm automotive paint that has been properly aged. Also suitable for use on vinyl or glass surfaces. 15 oz. aerosol. NOTE: CANNOT BE SHIPPED VIA AIR.

96-8987-96

3M Plastic and Emblem Adhesive

An excellent clear adhesive for plastic repair and emblem application. Use this strong, quick-drying adhesive for plastic or metal emblems, interior rigid plastic, tail light lenses, vinyl side moldings or upholstery. 5 oz.

96-8061-96

Adhesive Cleaner*

A specially blended solvent that provides easy clean up of most types of adhesives and quickly removes waxes, road tars, grease, oil and similar materials. Will not harm thoroughly dried automotive paint, vinyl or fabrics when properly used. 1 Quart Can. NOTE: CANNOT BE SHIPPED VIA AIR.

96-8984-96

3M Urethane Adhesive*

3M™ Auto Glass Urethane Windshield Adhesive is a medium viscosity, one-part, moisture-curing urethane adhesive. It is formulated to be fast-curing and non-sagging for rapid results and a clean and simple application process. The features of this adhesive produce a high-strength bond and is ideal for mounting vehicle windshields, backlights, sidelights, and even beltline windowfelts.

96-8693-96

3M Rubberized Undercoating*

3M™ Professional Grade Rubberized Undercoating produces a textured finish which resists chipping, abrasion, exterior rusting and weathering. This coating provides one-coat build-up with no dripping, running or sagging. The undercoating is excellent for automotive undercarriages and for other uses including protection for wheel wells, fenders, quarter panels and more.

Ferrule installing tool

Installing tool, door and trunk handle ferrule. For 1926-1937 GM cars and trucks using door and trunk handle ferrules such as our #70-0111-69. Without it ferrules are very difficult to install and impossible to reinstall after painting. This tool, copied precisely from a Fisher Body original, does a quick, neat and efficient job of installing ferrules staking them internally to keep them in place. It is precision-machined with a hardened blade, adjusts for depth of reach, knurled for firm grip, and plated for durability. Well worth it for even one car. 6 inches long.

70-0662-69

Heavy Duty glass retainer clip tool

Reduces the risk of chips and scratches to glass windows caused by makeshift tools. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage. It also dispenses with the need to remove rubber-like sealant surrounding the studs. A practical tool for placing trim retainer clips over headed studs welded around the body window shields and rear window openings.

94-0106-94

Panel Clip Retainer Removal Tool

For removing clips and retainers quickly and easily. Simply seat the tool on the shaft of the fastener and squeeze the molded handles together.

94-0100-94

All purpose tool

An all purpose tool with an extra long hook. Use to remove moldings, body clips, windshield seals, cotter pins and radiator hoses. Made of tough spring steel, heat treated, tempered and plated. 8 inches long, 4.875 inch blade with 2 inch hook.

94-0102-94

Trim pad and glued in windshield molding removal tool

For auto trim work. Double ended tool combines both left and right hand. Removes reveal molding on rubberless windshield jobs. 9.5 inches long.

94-0108-94

Rope Insertion Tool

This Rope Insertion Tool is specifically designed for use when working with rubber gasket set glass. The grip handle is uniquely injects the rope through its stem as it is pulled around the gasket to install. The tool has enough durable rope to accommodate even the of largest windows.

Eighteen (18) foot rope length provides complete coverage.

94-0118-94

GM type trim pad removing tool

Specifically designed to pull out plastic trim pad fasteners used on GM cars. It reaches under the trim panel, supports and grips the plastic fasteners, and lifts it without damage to the fastener or to the trim pad backboard. This tool is made of heat treated, high carbon steel and will work equally on metal fasteners. 8.5 inches long.
